

These web sites were reviewed and rated by students

Average Star Rating	Web site name	Address	Comments
3	National Cancer Institute: "The science behind the news -- understanding gene testing"	http://press2.nci.nih.gov/sciencebehind/genetesting/genetesting01.htm	Basics of genetic testing; info on genes, DNA etc; good basic info
4.5	Department of Energy Genome site	http://www.doegenomes.org	Human genome project info; background; issues; a lot of information
4	Human Genome Project Information (Oakridge National Laboratory)	http://www.ornl.gov/TechResources/Human_Genome/home.html	very informative but hard to navigate; a lot of links
4.5	Genetics and Public Policy Center	http://www.dnapolicy.org/genetics/testing.jhtml	Genetic testing info; genetic disease; reproductive cloning; easily accessible info
4	National Society of Genetic Counselors	http://nsgc.org/	Good info for careers; finding a genetic counselor
4	Your genes, your choices	http://www.ornl.gov/TechResources/Human_Genome/publicat/genechoice/index.html	Discusses various questions related to genetic testing
4.5	National Cancer Institute	http://www.cancer.gov/	General cancer info; lots of info; support groups; treatments; clinical trials
4.5	Center for Disease Control - Genomics In The News	http://www.cdc.gov/genomics/update/current.htm	Articles, news, well organized; up to date info
4.5	March of Dimes	http://www.marchofdimes.com/	Lots of info!; latest news; education; genetic research and medicine info
4.5	Save babies through newborn screening	http://www.savebabies.org	Newborn screening info, resource library, well organized but not very exciting
4.5	Gene Tests (Children's Health Care System)	http://www.genetests.org/	Medical genetics info; good educational info; updated daily
5	Cold Spring Harbor Laboratories - DNA	http://www.dnalc.org	Well organized; animations, interactive activities; links to everything!

	Learning Center		
2	Windows on the womb	http://www.pbs.org/nova/miracle	Stem cell info; different types of prenatal tests
4	National Center for Biotechnology Information	http://www.ncbi.nlm.nih.gov/	Pretty sophisticated, but good info; hard to navigate but good molecular bio info; anything you want to know about genomic biology and biotech
5	Genetics Home Reference (National Library of Medicine)	http://ghr.nlm.nih.gov/	Info about genetic conditions and genes
3	Chromosome Deletion Outreach	http://www.chromodisorder.org/intro.htm	Great job describing Chromosome abnormalities
4	UW -Biotechnology Center	http://www.biotech.wisc.edu/	Good info if interested in biotech and UW Madison
3	Gene Tree Genetic Testing	http://www.genetree.com/	Basic info; company site; offers genetic testing services
3.5	National Human Genome Research Institute	http://www.genome.gov	Three main links: health, research, policy; newsroom info; recent topic info
3.5	DNA Diagnostics Center	http://www.dnacenter.com/	Good info, but too much advertising; history of genetics section; basic info about prenatal and genetic testing
